Salt & Pepper Shakers

Supplies Needed

- 1" Forstner Drill Bit
- Blank
- Faceplate or Chuck
- Revolving Center
- Glue (Thick CA or Epoxy)
- Sandpaper/Finish
- Drill or Drill Press
- 4" x 4" Waste Block

- Eye and Ear Protection

Steps

- **1.** Select your blank and drill a 1" diameter hole 2 1/8" deep. Measure the shaker set for reference.
- **2.** Mount a 4" x 4" waste block on a faceplate and turn a 1" diameter drive tenon 1" long. The blank should fit snugly over the drive tenon.
- **3.** Mount the drilled blank onto the drive tenon and advance the tailstock with revolving center up against the bottom of the blank to provide pressure.
- 4. Turn to the desired shape, then sand and finish the blank.
- 5. The shaker set can be glued in place using an epoxy or bondaflex to allow for wood movement.
